INSPECTION REPORT

Jordon Productions
Rt. 1, Box 259-25
Greenville, TX 76401

Site TRA
Jackson County Expo Park
Central Point, OR

88-C-062
02-26 & 27-98
1500 & 1000
Routine

NARRATIVE

The inventory consists of two camels, three tigers, and four lions.

CATEGORY III: Non-compliant item(s) identified this inspection

Section 3.125(c) Storage of Food

The Temperature in the meat storage area was 30 degrees F. On 02-26-98, and 32 degrees F. on 02-27-98 at 1100 hrs. Since there is over a months worth of meat being stored in this cooler, the current temperatures are not low enough to prevent deterioration of the meat for that long. A temperature maintained at around 20 degrees F. would be more appropriate. Correct by 03-05-98.

Section 3.128 Space Requirements

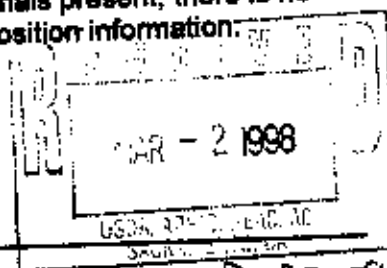

The transport enclosures provide adequate space while traveling to and from exhibits, but do not provide adequate space if the animals are left in them all the time. The enclosures are 45" x 7' x 4'. The 4' height is not adequate to let the cats exhibit a vertical posture should they decide they want to. Allowing them to be loose in a secure area would satisfy this requirement, as discussed. Correct by 03-30-98, or contact your regional Animal Care office for an extension.

Section 3.138 Primary Conveyance

The trailer used to transport the camels has panel damage on the ceiling, exposing insulation which could be ingested by the camels. Correction should be done before the camels have access to this area again.

Section 2.75 Records

While various health certificates show data on the animals present, there is no overall record of the current inventory, to include acquisition and disposition information. Correct by 03-13-98.
